

Tips for a successful Daffodil Day Dip

Plan your Dip

After registering for the Daffodil Day Dip, it's time to set a date and location, how many times you want to Dip and what your fundraising goal will be. Then gather your friends and family to join you for your Dip, donate to your fundraiser and cheer you on as you brave the cold.

Spread the word

Be sure to invite all your friends and family along to join you for your Dip. It is always more fun dipping with others so get a team together and have fun braving the cold together. You can find social tiles on our website, and don't forget to share your fundraising page on your social media channels and ask for donations!

Share your story

Sadly, all of us will be affected by cancer at some point in our lives and this is exactly what inspires many of our supporters to join the Daffodil Day Dip. Each Dip is as unique as the stories behind it. Make your Daffodil Day Dip personal and share your story with those around you to help raise awareness for those affected by cancer. When almost 1 in 2 Australians are diagnosed with cancer, every story counts. For all that cancer takes, give hope!
